Anacamptis pyramidalis | Sivri salep

Synonyms:

Koruma statüsü: CITES kapsamında yer almaktadır

Bitki 20-65 cm, çoğunlukla ince, narin. Yumrular 2, küresel veya oblong. Gövde boyunca tabana yakın yoğunlaşan 7-15 yapraklı, tabanda linear veya dar lanseolat, bazen kanallı ve kıvrılmış, genelde nemli yerler dışındaki bitkilerde solar, yukarıya doğru çıkıldıkça yapraklar küçülür, kın şeklinde gövdeyi sarar, üst taraftaki yapraklar braktemsi. Spika çok ve yoğun, 20-75 çiçekli, piramidal veya uzamış silindirik yapıda; brakteler 1.5-3.5x6.5-18 mm, zarımsı, ovaryumdan hafifçe uzun; çiçekler karmen kırmızı veya koyu ile soluk pembe arası, bazen beyaz; sepaller ovat-lanseolat, akut, dorsal sepal petallere yaklaşmış; lateral sepaller yayılmış; petaller oblik ovat, kolumnayı sarmış; labellum 5-10x4-11 mm, yassı, yelpaze şeklinde, genelde aşağıya doğru sarkık, tabanında meme şeklinde boyuna 2 çıkıntı dar yuvarlak mahmuz ağzından merkeze doğru uzanır, genelde ucu dışarıya dönüktür; eşit olmayan 3 loba ayrılmış; mahmuz filiform, yatay veya aşağı doğru uzanır. Ovaryum 1-3x6-14 mm, tüysüz, resupinat, silindirik; kolumna 1.5-3 mm, morumsu-pembe.

Submitting images

Click on one of the square fields in the middle.
New window opens that lead directly to the Camera Roll,
where the tablet saves the taken images, select one
and click Open.

Submitting information

Required fields:

Species name and date are automatically filled in by the software;

Latitude and Longitude are automatically filled in by the software,
if the GPS device is plugged into the tablet;

The closest place, the Observer and the Count of specimens are filled in
mandatory by the user;

Threats and other remarks is an optional field, but it is very important for
the results of the monitoring. Through it, potential threats are submitted
to other important data that are then spreading
to all other users of the software but are not visible to
users with a simple access level on web platform.

The information is submitted to our expert biologists and is evaluated by them.
Upon acceptance by them, it spreads to all others holding tablets,
Then they will find the information on their own device when the
database updates once it has Internet connectivity.

Full information on habitats, coordinates, number of specimens,
closest location is available only to tablet owners and
web platform administrators on <https://orchis.onenat.org>

his.onenat.org/home
